

St John Fisher RC Primary School

Year One Knowledge Organiser – Autumn Term One - Science

What we will be learning

I know:

Lesson 1

- How to identify and name parts of the human body
- How to draw and label parts of the human body

Lesson 2

- How to explore the sense of sight

Lesson 3

- How to explore the sense of taste
- Explore the sense of touch

Lesson 4

- How to explore the sense of taste

Lesson 5

- How to explore the sense of smell

Lesson 6

- Understand that there are four seasons in a year and can describe seasonal changes in Autumn

Key Facts to Remember

- I know the names of the basic parts of the body.
- I understand that parts of the body are associated to each sense.
- I identify common animals.
- I understand that animals can be classified based upon what they eat.

Key Vocabulary and Glossary

Carnivore

A carnivore is an animal that eats mostly meat, or the flesh of other animals.

Herbivore

An herbivore is an animal that mainly eats plants. Herbivores can range in size from small insects, like aphids, to large animals, like elephants.

Omnivore

An omnivore is an animal that eats both plants and meat. Omnivores can range in size from tiny insects to large creatures, like humans.

Key knowledge: A part or section of the human body, such as the arm, chest, nose, neck, or knee.

Key Knowledge: The five senses are the body's specialized functions that allow us to perceive the world around us

Key Knowledge: Some things eat meat or plants, others, like humans eat both.

Key Knowledge: I can group animals according to what they eat

Glossary/Key Vocabulary:

Human body – The characteristics of people opposed to animals.

Senses – How the body learns about the world- touch, taste, smell, hear, sight.

Pet – A tamed animal kept for pleasure.

Wild animal – An animal in their natural environment.

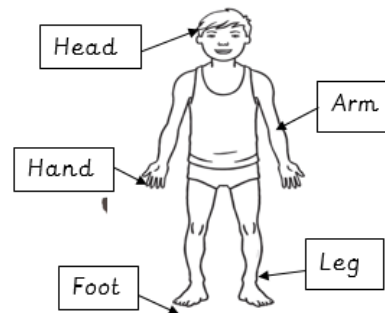

Sorting – Arrange in separate groups according to types.

Classifying – Group in categories according to shared features.

Reptiles - Cold-blooded vertebrate animals that has dry, scaly skin.

Birds - Warm-blooded egg-laying vertebrate animals that has wings and feathers.

Mammals - Warm-blooded vertebrate animals that have hair or fur.
