

St John Fisher RC Primary School

Year Four Knowledge Organiser – Autumn Term One – Computing – Data Handling

Things we will learn:	Things I will remember:	Apps	Curriculum Links: Geography
I know: Lesson 1 - How to understand the basics of online questionnaires. How to create a new Google Form and customise its appearance. Lesson 2 - How to add a variety of questions to a Google Form. Lesson 3 - How to publish and share an online questionnaire. Lesson 4 - How to access and organise data from a questionnaire using Google Sheets. How to analyse data from a questionnaire to draw conclusions.	How to change the layout of a Google form. How to add a variety of different questions. How to share a questionnaire online. How to access, sort and analyse results of a survey.	Google Forms Google Forms is a free application for collecting data and information to create surveys and charts. 	To link with learning about the 10 boroughs of Greater Manchester the GM Transport links.

Key Knowledge:
