St John Fisher RC Primary School
Year Five Knowledge Organiser – Autumn Two – Computing – Video

What we will be learning

Weeks 1 - 4

I know:

- How to use the basics of video editing using iMovie.
- How to improve video quality using green screen, crop, and resize tools.
- How to develop a structured news report script.
- How to record the news report using green screen techniques.
- How to apply advanced iMovie features to create a news report.
- How to publish and share the final video project.

Key Facts to Remember

- I can understand the basic functions of iMovie and its tools.
- I can create a structured news report script, outlining key segments properly.
- I can use the green screen technique in video production.
- I can crop and resize video clips to improve quality.
- I can apply advanced iMovie features, such as transitions and audio enhancements, to produce a polished news report.
- I can publish and share my completed video.

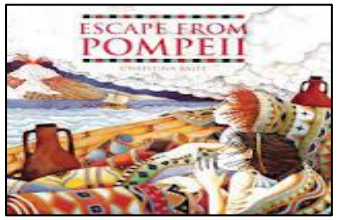

Key Vocabulary and Glossary

- **Green Screen** - A technique that allows filmmakers to replace a solid green background with any image or video, giving the illusion of being somewhere else.
- **Crop** - The action of cutting off unwanted parts of a video or image to focus on a specific area.
- **Resize** - Changing the dimensions of a video or image to make it larger or smaller.
- **Script** - A written text that outlines what will be said or done in a video or presentation.
- **Editing** - The process of selecting and arranging video shots to create a sequence or narrative.
- **Transition** - A technique used to move from one scene to another, such as fades or cuts.
- **Clip** - A short segment of video.
- **Publish** - Making the final video available for others to watch, typically by sharing online.
- **Share** - To distribute the final video project with others through various platforms.

Interesting Facts

- The green screen technique has been used in Hollywood films since the 1930s.
- iMovie was first launched in 1999 and has evolved significantly with each update, adding new features and capabilities.
- A well-crafted script can enhance storytelling and engage your audience more effectively.
- Video content is known to be one of the most consumed forms of media online today, making video editing skills highly valuable.

Theme

Escape From Pompeii by Christina Balit

Heading for the harbour, Tranio and his friend Livia hide on a boat and witness one of the most terrifying moments in recorded history- the eruption of Mount Vesuvius and the destruction of their beloved city, Pompeii.

Apps & Software

iMovie

A free video editing application from Apple that's available on Mac, iPhone, and iPad

SeeSaw

An educational platform that can be used to create an electronic portfolio of children's completed digital work.
