Change of speed
Losing an opponent
Timing
Decision making

Physical Fitness:

Coordination
Agility
Reaction time
Power
Stamina
Strength

Equipment:

Basketball
Basketball hoops
bibs
Cones

Match

- The aim of basketball is to score more points than the other team by shooting the ball into the basket.
- Baskets can be worth 1,2 or 3 points.
- The team with the most points at the end of the game wins.
- Each game begins with a jump ball or tip-off. The referee throws the ball into the air of the centre circle and two opposing players leap up to try and tap it away.
- Each game is split into four quarters.

KS2 PE Knowledge Organiser Spring One: Basketball

Rules:

- When defending someone, you can stand as near as you wish and may also hold your hands up to intercept a pass or use your hands to try and knock the ball while the opponent is dribbling.
- Basketball is a contact sport therefore you can come into contact with any other player (you must not use force against the other player).
- If you move with the ball you must be dribbling.
- To score a goal the basketball must pass completely through the ring.
- If the ball is out of the court, it will be decided who was the last team to touch the ball. The other team will be given a throw in.

What a basketball court looks like:

Playing positions and their roles on the court:

1 – Point Guard	To facilitate scoring opportunities for their team or for themselves.
2 – Shooting Guard	To score points for their team and take control of the ball on defence.
3 – Wing or Small Forward	To score points, defend and be rebounders behind the Power Forward and Centre.
4 – Power Forward	To play offensively with their backs towards the basket and position themselves defensively under the basket or against the opposing power forward.
5 - Centre	The centre is usually the teams tallest and strongest player and is positioned under the basket. They are involved in the offense and defence.
