

St John Fisher RC Primary School

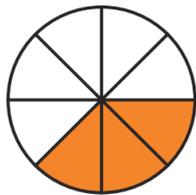

Year 3 Maths Knowledge Organiser

Spring Two – Fractions (A)

Learning Intentions

- I can understand the denominators in a unit fraction.
- I can recognise unit fractions.
- I can compare unit fractions.
- I can recognise halves, quarters and thirds in shapes.
- I can count in fractions on a number line.
- I can find equivalent fractions on a number line.

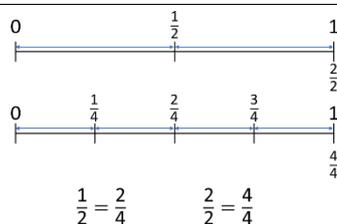

What are fractions?

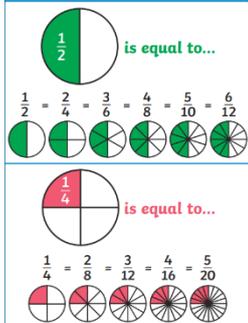

$\frac{3}{8}$

Numerator
How many equal parts of the whole are needed?

Denominator
How many equal parts are in the whole?

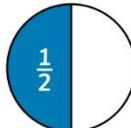

Equivalent Fractions

Recognising Unit Fractions

Half

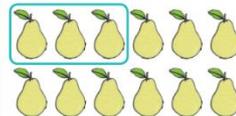

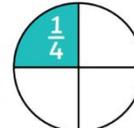

A whole split into two equal parts.

$\frac{1}{2}$ of
 $8 = 4$

Quarter

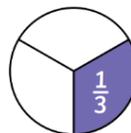

A whole split into four equal parts.

$\frac{1}{4}$ of
 $12 = 3$

Third

A whole split into three equal parts.

$\frac{1}{3}$ of
 $6 = 2$

Non-unit Fractions

$\frac{2}{3}$

$\frac{3}{4}$

Key Vocabulary

Fraction	A part or section of a shape or amount.
Numerator	The top number of the fraction – how many parts we are looking at.
Denominator	The bottom number of the fraction – how many parts there are altogether.
Unit Fraction	A fraction with a numerator of 1.
Non-unit fraction	A fraction with a numerator of more than 1.
Equivalent	fractions that represent the same value, even though they look different e.g. $\frac{2}{4} = \frac{1}{2}$
Half	One of two equal parts e.g. $\frac{1}{2}$
Quarter	One of four equal parts e.g. $\frac{1}{4}$
Third	One of three equal parts e.g. $\frac{1}{3}$
Tenth	One of ten equal parts e.g. $\frac{1}{10}$
